Instructions

Purchase Orders: Please provide a purchase order so we may begin work. It may be included with the gages or sent by e-mail, fax, mail, or phone. Required Information:

- PO Number
- Company name and address
- Contact name and phone number
- Calibration frequency. If no frequency is provided we must leave the calibration interval and calibration due date on the calibration certificate blank
- Special requirements
- Declared value for insurance
- Shipping instructions
- If a "Rush" order the PO and the boxes must be marked "Rush"
- For rush orders add 20% to the price
- Gage identification number and complete description of items

Notes:

- For gages requiring excessive cleaning an additional \$20 fee per gage may apply
- Calibration of adjustable and tapered thread rings requires master set plug gages
- We have a large inventory of masters, but some sizes may require a special master, in these cases we will contact you

Turnaround Time:

- Normal service is 3 to 5 working days after receipt of gages and PO
- Rush service is normally one working day (two days maximum) after receipt of gages and PO

Insurance on Return Shipments:

- If you require insurance on return shipments, please note the insurance value on your PO
- Conbraco Calibration Services is not responsible for shipping damage to or from the laboratory

Calibrations are traceable to SI units through NIST (National Institute of Standards and Technology)
